

VENKAT RAMSHESH (LinkedIn)

WORK HISTORY

Field Engineer, 05/2022 - present

United States Citizenship and Immigration Services (USCIS)

- Installation and support for laptops, workstations, printers, and AV equipment of USCIS staff, students, classroom, and offices ensuring minimal downtime
- Troubleshooting computer, printers, scanners, and network issues
- Regular system software updates, hardware fixes, vulnerability fixes, imaging of computers, maintenance of system servers and switches, UPS, VPN/remote worker support
- Addressing tickets, customer issues in a timely manner, inventory management, AD updates, PowerShell for active directory reports. **CompTIA A+** certified
- Highly positive feedbacks regarding customer support and troubleshooting
- **AWS Community Builder**, Certified in AWS Solutions Architect Associate and Certified Cloud Practitioner. AWS Serverless learning badge. Written several technology based blogs and implemented projects in my free time for:
Automation/Devops: CI/CD, Jenkins, GIT hub, Ansible, Elastic beanstalk for raffle webpage, GitHub automation for personal webpage, URL shortener, news API, Docker for HTTP server, CloudFormation templates, Python boto3 for creating S3 buckets, Systems Manager
Networking: VPC, Subnets, NAT, IGW, Egress gateway, Workspaces, VLANs, routers, switches, TOR router
Highly available and scalable architecture: Conference raffle webpage using CloudFormation, Application Load Balancer and Autoscaling
Instances: Blog page on EC2 instance (<http://44.207.232.191:8000/>), RDS instances for database, Jump box
Machine Learning: Transcribe, Rekognition. Guard duty
Serverless/Event Driven: API's, Lambda function, Dynamo DB tables, SNS, SQS, SAM, Transcribing
Storage: S3 for static website (<https://vramsheshpersonalblog.com>), EFS, EBS and file transfer family
Databases: SQL and NoSQL databases
Security/Delivery: Encryption, SSL certificates for website, Presigned URL, site-site and client VPN, CDN, Secrets Manager, IAM, Organizations, Cognito, Kali Linux
Migration/upkeep: Server and database migration
Query: Athena
- **Python**, HTML/CSS (front-end), and Flask (back-end) programming during personal time. (Code for few projects: <https://github.com/kris1878/pythonprojects>) Implemented projects:
HTML/CSS: Personal website (<https://vramsheshpersonalblog.com>)
Serverless: S3 photos, video transcribing
Flask/API: Personal blog, Café shops, Calorie tracker, Stock news, Spotify songs list, URL shortener, serverless chat app
Games: Pong, snake, turtle race, quizzlet
Security: SSL certificate tracker, packet sniffer, password generator
Lifestyle: Pomodoro, rain alert, birthday wisher
Graphing: Stock graphing project using matplotlib, web scraping
Machine Learning: Housing data, financial data
Used libraries like Flask, Requests, Pandas, Matplotlib, Plotly, Numpy, Boto3, Beautiful soup, Turicreate, TensorFlow and Turtle for these projects.
- Currently studying for AWS Professional Certification, **Machine Learning/ AI Specialization on Coursera**, CompTIA Sec +

Field Engineer II, 11/2020 - 05/2021

Cytek Biosciences

- Installation and support for **Aurora flow cytometer** in Philly/NJ area in a timely manner
- Regular system preventative and update visits

267-858-8955

venkatramshesh@yahoo.com

vramsheshpersonalblog.com

PROFESSIONAL SUMMARY

Motivated, collaborative biomedical engineer skilled in IT, cloud, python programming, security, devops and ML. Effective engineer offering excellent skills in technology, research, installation, training, and testing of systems. Forward-thinking, problem solving professional offering years of experience working in fast-paced environments. Organized and dependable candidate successful at managing multiple priorities with a positive attitude

CERTIFICATIONS & MEMBERSHIPS

- AWS Certified Solutions Architect Associate, September 2022
CVBPEGQCRJE4Q1S0

- AWS cloud practitioner, June 2022
KCZ7CJ8JFEB4Q0KH

- AWS Community Builder, March 2023

- AWS Serverless learning plan badge, March 2023

- CompTIA A+, March 2023
COMP001022210326

- Identified major system issues that could arise and provided solutions for these problems
- Adjusting parts stock, generating install and PM reports
- Updating manuals, technical documentation

Field Engineer II, 04/2020 - 11/2020

Cytiva

- Installation and support for **OMX super resolution microscopes** (OMX V3, V4, SR, SR plus and FLEX models) in North America, Asia, and Europe in a timely manner
- Troubleshooting and fixing system issues on-site and remotely
- Minimizing average downtimes ~1 week
- Yearly preventive maintenance (PM) and hardware/software updates
- Updating manuals, technical documentation
- Adjusting parts stock, generating install and PM reports, quotations

Field Engineer I, 01/2015 - 03/2020

GE Healthcare Lifesciences

- Installation and support for **GE OMX super resolution** (OMX V3, V4, SR and SR plus models) and Delta Vision microscopes in North America, Asia and Europe
- Trained users on image analysis software
- Troubleshooting and fixing system issues on-site and remotely
- Yearly PM and hardware/software updates
- Customer support and training of end users both remotely and on site, updating manuals
- Hired and supervised subcontractors to improve production and meet critical deadlines.
- Interacted effectively with site engineering team and field staff to coordinate work that complied with design and installation documents

Research Instructor/Facility Manager, 07/2011 - 12/2014

Medical University of South Carolina

- Provide bioengineering and managerial support for the successful day to day working of the **Advanced Imaging Core** which include eight confocal, multiphoton & fluorescence microscopes and image processing workstations
- Instruct users on microscopy/imaging usage and projects, consult on projects involving use of light microscopy techniques within and outside the university
- Consulted users on image analysis and processing.
- Organizer and instructor for the 2014 Fifth and 2012 Fourth Charleston Light Microscopy Workshop for the Biosciences
- Assisted in successful NIH grant application as part of Cell and Molecular Imaging resource
- Expanded the core instrumentation from two to eight microscopes during my tenure.
- Led facility management staff and consultants in producing business plan that focused on facility operations

Bioengineer/Facility Manager, 12/2007 - 06/2011

Medical University of South Carolina

- Provide bioengineering and managerial support for the successful day to day working of the center for **cell death, injury, and regeneration (CCDIR) and cell and molecular imaging resources**
- Organized and instructed for the 2010 Third and 2008 Second Charleston Light Microscopy Workshop for the Biosciences
- Assisted in successful NCI and NIH grant application from Hollings Cancer Center as part of Cell and Molecular Imaging resource.

- Programming for Everybody (Getting Started with Python) XCZBAVAEH675
- Cisco Certified Network Associate, May 2000

PROGRAMMING SKILLS

Python, Matlab, C, Image J, HTML/CSS
Versed in Windows and Linux OS

EDUCATION

Ph.D., Biomedical Engineering, 2008
University of North Carolina - **Chapel Hill**

M.S, Biomedical Engineering, 2002
University of North Carolina - **Chapel Hill**

B.E, Instrumentation Engineering, 1999
Mumbai University/University of Mumbai

PROFFESIONAL ACTIVITIES

- Reviewer for Journal of Biomedical Optics, Methods and Microscopy & Microanalysis
- Intravital Imaging Symposium at NIH, Bethesda, May 2011
- 2009 Workshop on FRET Microscopy, University of Virginia, Charlottesville
- Analytical and Quantitative Light Microscopy Course 2006, Marine Biological Laboratory, Woods Hole, Massachusetts

EXTRACURRICULAR ACTIVITIES

- Member of UNC squash team
- Recreational salsa dancer and tennis player
